

# WOODS® BRUSHBULL™ CUTTER

## Model BB60X

BB72X Shown

Woods' BrushBull™ cutter has set the standard for today's rotary cutter market — with innovations such as the smooth, slope-top deck and Quick-Change blades.

Requiring a minimum of 25 hp, the BB60X gives you Woods superior durability and performance in a sleek, round-front design. This rugged attachment is lightweight, maneuverable, and has a cutting capacity of up to 5,1 cm; slicing through tough brush and saplings with ease.

- Ideal for use on lower horsepower compact and utility tractors
- 5,1 cm tubular rear bumper provides structural integrity when backing over brush
- Standard Quick-Change blade pins are easy to remove
- Standard chain shielding, for added safety and peace of mind
