

# WOODS® TURF BATWING®

## Model TBW204

**TBW180**  
Shown with chain shielding

Requiring a minimum of 40 hp, the TBW204 finish mower is designed for superior cut quality and built for a long, durable life. Engineered with Woods' superior standards, this flexible wing finish mower provides maximum performance and precision cutting in applications, such as large lawns, parks and sporting fields.

- Tapered roller bearings in wheels and greasable blade spindles
- Features a strong, 4,17 mm steel deck and a powerful 75 hp gearbox
- Caster arms can be adjusted inboard for more maneuverability and improved performance on rough ground
- Rounded front corners and tapered deck sides improve maneuverability and grass discharge while box-style construction offers superior deck strength
- Options include mulching kits, highway light kit and anti-scalp roller kits
