

# WOODS® GRADING SCRAPERS

## Model GSS72 and GSS72P

Representative image

The Woods® GSS72 and GSS72P Grading Scrapers are rugged tractor attachments that loosen, level and smooth dirt and gravel in driveways, yards and fields. Both models are 193 centimeters wide, with a working width of 180 and fit 20 to 45 horsepower tractors with Category 1 hitches.

The GSS72P is a premium attachment with scarifier teeth for deep tillage. The scarifiers are adjustable so that you increase your performance by positioning them for the type of work or material.

- Heavy-duty mast plate creates more down force for a smoother surface and virtually eliminates a washboard effect
- Adjustable skid shoes and scarifiers\* increase performance
- Tall side frames hold more material for leveling
- Beveled leading edges on the skid shoes and structural reinforcements keep this scraper strong for years of use
- Reversible/replaceable high-carbon cutting edges increase work life and are easy to maintain

SPECIFICATION	GSS72/GSS72P
Tractor Engine HP	20 - 45 hp
Tractor Hitch	Cat 1
Working Width	180 cm
Overall Width	193 cm
Overall Length	117 cm
Box Height	40,6 cm
