

WOODS® GRADING SCRAPERS

Model GSS54 and GSS54P

Representative images

The Woods® GSS54 and GSS54P Grading Scrapers are ideal landscape tools for grading and leveling dirt and gravel in driveways, lawns and fields. Both models are 147,3 centimeters wide, with a working width of 134,6 and fit 15 to 30 horsepower tractors with Limited Category 1 or Category 1 hitches.

The GSS54P is a premium attachment with scarifier teeth for deep tillage. The scarifiers are adjustable so that you can position them for the type of work and increase your performance.

- Heavy-duty mast plate creates more down force for a smoother surface and virtually eliminates a washboard effect
- Adjustable skid shoes and scarifiers* increase performance
- Tall side frames hold more material for leveling
- Reversible/replaceable high-carbon cutting edges increase work life and are easy to maintain

SPECIFICATION	GSS54/GSS54P
Tractor Engine HP	15 - 30 hp
Tractor Hitch	Limited Cat 1 & Cat 1
Working Width	134,6 cm
Overall Width	147,3 cm
