

WOODS® GRADING SCRAPERS

Model GSM96 and GSM96P

Representative image

The Woods® GSM96 and GSM96P Grading Scrapers are rugged tractor attachments built with superior durability for tough landscaping and roadway projects. Ideal for work such as leveling potholes and ruts in driveways or roads, or removing berms and bumps in lawns and fields. Both models are 254 centimeters wide, with a working width of 241 and fit 30 to 65 horsepower tractors with Category 1 or Category 2 hitches. A tall 40,6 centimeter box height holds a lot of material with each pass.

The GSM96P is a premium attachment with scarifier teeth for deep tillage. The scarifiers are adjustable so that you increase your performance by positioning them for the type of work or material.

- Heavy-duty mast plate creates more down force for a smoother surface and virtually eliminates a washboard effect
- Adjustable skid shoes and scarifiers* increase performance
- Tall side frames hold more material for leveling
- Beveled leading edges on the skid shoes and structural reinforcements keep this scraper strong for years of use
- Reversible/replaceable high-carbon cutting edges increase work life and are easy to maintain

SPECIFICATION	GSM96/GSM96P
Tractor Engine HP	30 - 65 hp
Tractor Hitch	Cat 1 & 2
Working Width	241 cm
Overall Width	254 cm
Overall Length	117 cm
Box Height	40,6 cm
Number of Scarifiers*	6
Weight with Scarifiers*	364 kg
Weight without Scarifiers	323 kg
Reversible Cutting Edge	1,3 - 15,2 cm
Scarifier Adjustment*	-6, -3, +1, +6 cm
Skid Shoe Adjustment	-2,5 to +1,3 cm
Lower Hitch Design	clevis
ASABE Quick-hitch Compatible	yes
