

WOODS® REAR DISCHARGE FINISH MOWER

Model PRD6000

PRD7200
Shown with chain shielding

Requiring a minimum of 15 hp, the PRD6000 finish mower helps you maintain a beautiful lawn in less time. Engineered with Woods' superior standards, this 3-point finish mower is designed for mowing large lawns, sports fields, and parks.

- Ideal for compact and subcompact tractors
- Features a strong, 4,17 mm steel deck and a powerful 60 hp gearbox
- Caster arms can be adjusted inboard for more maneuverability and improved performance on rough ground
- The 11,7 cm deep deck, along with baffling and rear discharge design, ensure exceptional material distribution and a higher quality of cut
- Rounded front corners and tapered deck sides improve maneuverability and grass discharge while box-style construction offers superior deck strength
