

# WOODS® BRUSHBULL™ CUTTERS

## Model BB6000X

**BB7200X**  
Shown with chain shielding

Woods' BrushBull™ cutter has set the standard for today's rotary cutter market — with innovations such as the smooth, slope-top deck and Quick-Change blades.

Requiring a minimum of 40 hp, the BB6000X gives you Woods superior durability and performance in a sleek, round-front design. This rugged 152,4 cm attachment is lightweight, maneuverable, and has a cutting capacity of up to 10,2 cm; slicing through tough brush and trees with ease.

- 5,1 cm tubular rear bumper provides structural integrity when backing over brush
- Heavy-duty, replacement skid shoes
- Standard Quick-Change blade pins are easy to remove
- Standard chain shielding, for added safety and peace of mind
- Standard blade ring
- Optional baffle for material distribution
